## FOCUSED ON YOU.

With us you are more than just a customer number - we focus on you and your company.

We will be glad to assist you in specifying a machine based on your requirements or in setting up a proactive service concept. We are your strong partner along the entire way.

Don't hesitate to talk to us - we are happy to assist and advise you on your possibilities with GMTG.

- **You** - We will care for you in a personal matter and as a partner!
- **Your company** - Our aspiration: Finding for you the most economical and attractive solution!
- **Your productivity** - Our core competences: Machine & Process Optimization!
- **Our quality** - All core components made one hand! Made in Germany!
- **Our service** - On-site within the shortest possible time!
- **Our prices** - Fair in machine and service!

## OUR CLAIM? YOUR BENEFITS!

You will continue to receive all known products and services from DEPO and EDEL - but going forward from one source - worldwide! **By bundling sales, service and administration under the umbrella of the German Machine Tool Group**, we are able to position both companies for the future. Strengthened

by this, and with great innovative strength, we aim to be a reliable and trusting partner for our customers. We set **short response times in sales and service as well as a high availability of spare parts** as our top priority! In addition our experts will actively assist you with regard to process and tooling optimization.

## STRONG GROUP – STRONG PARTNER

### The German Machine Tool Group – Focused on Your Success.

Behind the new brand **German Machine Tool Group**, GMTG for short, is nothing short of the powerful combination of the two German family-owned mechanical engineering companies **EDEL Werkzeugmaschinen GmbH** and **DEPO Werkzeugmaschinen GmbH**.

Innovative **know-how in terms of process and productivity** meet more than 100 years of experience and highest precision in mechanical engineering - The two companies DEPO Werkzeugmaschinen GmbH from Marienfeld in North Rhine-Westphalia and EDEL Werkzeugmaschinen GmbH from Pliezhausen in Baden-Württemberg complement each other ideally in their service and product portfolios. With approximately **1,000 installed machines** at well-known customers with the highest quality standards from the **tool and mold making industry**, the **aerospace industry** and the **automotive industry**, we draw from extensive experience in a wide range of requirements.

Highly productive 3/4-axis **vertical** and **horizontal** as well as universal **5/6-axis universal machining centers** for the production of complex and filigree component structures up to heavy machining of high-strength materials are now available from a single source. The **modular machine design** offers our customers maximum flexibility in their individual configuration.

Thanks to a strong technology partnership in development and production of the core components such as swivel milling head, spindle and rotary table we are able to offer you **a manufacturing solution specially tailored to not just meet but exceed your requirements**. With us you get machine tools where all components perfectly communicate with each other, as they have been designed to work together.

# DEPO

WERKZEUGMASCHINEN

Part of the GMTGroup

### SHORT FACTS
